

FP7 - 3rd Call Future Internet Public-Private Partnership: road show in Italy
Pisa, June 27, 2013
Auditorium, Area della Ricerca CNR (<http://www.area.pi.cnr.it/>)
Consiglio Nazionale delle Ricerche, Pisa

The Future Internet Public Private Partnership (FI-PPP) aims to advance Europe's competitiveness in Future Internet technologies and to support the emergence of Future Internet-enhanced applications of public and social relevance.

The 3rd call of the programme will be launched at the end of June 2013 and will close on December 10, 2013. For more information please click on http://cordis.europa.eu/fp7/ict/netinnovation/call3_en.html.

The European Commission services are willing to participate in the road shows in different Member States to raise awareness of the call. Scope of this event is to present the 3rd call of the FI-PPP to the Italian community.
